

Magnum MEGA Power Rack

Developed specifically for power training, the efficient design of our Magnum MEGA Power Rack helps users get more out of every set and rep. A height indicator and a colored locking pin make bar-level changes quick and easy, a fully enclosed design optimizes spotting, and J-hooks made of high-density polyethylene (HDPE) protect the bar knurling from scratches. Plus, the seven-gauge steel uprights and heavy-duty frames mean the Magnum MEGA Power Rack can handle your toughest users and the most rigorous workouts. Includes three retractable lower band pegs on each side (six total).
